- College has secured a 4.5 star rating for the activities carried out in the campus by Institution's Innovation Council (IIC).
- Consistently awarded "National Employability Award" every year since 2017 by Aspiring Minds.

About the Department

- The Department of Chemical Engineering, established in 1994, has made remarkable strides in education, research, and professional development. The department is NBA accredited since 2003 and functions under an Autonomous Institution affiliated to Anna University.
- Recognized by Anna University as a Nodal Centre for Research since 2010, the department offers Ph.D. programs for both full-time and part-time scholars. It also received Research Centre recognition in 2023, further strengthening its commitment to advanced research and innovation.
- The department comprises nine dedicated faculty members, including seven doctorates and two pursuing Ph.D. programs. It houses eight well-equipped laboratories, R&D facilities, and actively operates IChE and IEI student chapters, fostering professional growth and technical exposure among students.
- Over the years, the department has organized numerous workshops, conferences, and training programs, promoting a culture of continuous learning. It has successfully obtained funding from MSME and TNSCST for research and development initiatives.

Thrust of Conference

- The International Conference on Sustainable Innovations in Science and Technology (ICSIST 2025) will be held on November 4 & 5 - 2025, at St. Joseph's College of Engineering, Chennai – 600100, Tamil Nadu, India. The conference is proudly organized by the Department of Chemical Engineering in collaboration with The Institution of Engineers (India) [IEI] and the Indian Institute of Chemical Engineers (IIChe)
- ICSIST 2025 unites researchers, academicians, industry experts, and policymakers to discuss innovations driving environmental sustainability and the UN Sustainable Development Goals (SDGs). The conference emphasizes the role of Chemical Engineering in developing cleaner, smarter, and greener technologies

Themes

- Sustainable Material and Green Nano Technology
- Renewable Energy and carbon capture
- Water and Waste Management

- Clean manufacturing and Process Optimization
- Climate Science and Environmental Monitoring
- Industrial Sustainability and Corporate Responsibility

- Authors are invited to submit original and unpublished research papers in the prescribed format. The submitted manuscripts will undergo a peer-review process, and accepted papers will be included in the conference proceedings and also will be published in reputed Scopus journal.
- All papers will be peer-reviewed by the technical committee.
- Accepted papers will be notified via email.
- Selected papers may be recommended for publication in reputed journals or conference proceedings.
